SAVOX® MS-Com

Com-unit for Dräger face masks

The SAVOX® MS-Com is a lightweight weight, durable and water-proof communication unit customized for Dräger facemasks. The MS-Com provides instant, clear and reliable "hands-free" communication, increasing personal safety and work efficiency - allowing full concentration on the actual task.

The speaker unit mounts easily to the mask by a rugged and easy to use clip-on mechanism. Fastening brackets ensure a perfect fit on the different types of masks. The microphone of the MS-Com is placed safely protected behind the front cap while the MS-Com "boom version" stays outside the front of the mask, allowing fast releasing and maintenance.

The intrinsically safe SAVOX® MS-Com and MS-Com Boom connect by a robust quick release plug to any SAVOX® com-control/PTT unit, adapting the system to most types of two-way radios.

The SAVOX® MS-Com complies with the EN 136 standard.
